

AQIB KHAN

Front End Developer & Hybrid Mobile Developer

+923405505445 @aqibk532@gmail.com <https://www.linkedin.com/in/aqib-khan-435163134> Mardan, Pakistan

SUMMARY

A highly motivated and results-driven Full Stack & Mobile Developer with **4+ years of experience** in frontend, mobile, and backend development. Proficient in Angular, Ionic, Android (Java), Node.js, Firebase, and MongoDB. Adept at building scalable web and mobile applications, integrating real-time communication systems, and working in Agile teams. Passionate about clean, efficient code and delivering solutions that make a meaningful impact.

EXPERIENCE

Ideal Innovative Solution

Techbar Chat | Messaging & Video Call System

- Designed & implemented a real-time communication system across web & mobile platforms.
- Integrated messaging, audio, and video calling using Agora RTC/RTM SDK.
- Built with Angular, Ionic, Java (Android), and Node.js backend using Firebase.
- Delivered seamless cross-platform experience with efficient real-time sync.

Techbar Attendance

- Developed a comprehensive employee management application supporting both Work from Office and Work from Home modes.
- Implemented modules for Attendance, Leave Requests, Task Management, Document Handling, and Asset Allocation.
- Integrated real-time chat and audio/video call features to ensure seamless team communication.
- Designed user-friendly interfaces for employees to self-manage their work-related records and tasks.

Techbar POS | HR System

- Developed scalable native Android applications using Java and Firebase, ensuring performance and real-time data synchronization.
- Integrated backend services using Node.js, Express.js, and Firebase, implementing secure and efficient APIs and real-time features.
- Over 6 months of hands-on experience in developing backend APIs, services, and middleware with Node.js.
- Contributed to multiple domain projects including HR management, Sales systems, Point-of-Sale (POS), and real-time communication platforms.

PROJECTS

EMIS (Education Management Information System)

- Delivered core EMIS modules—School Registration/Profile, PTSMC, Indicators Admin, and User Management—using Angular with Reactive Forms, pagination, and audit-ready validations.
- Implemented offline-first workflows via **ngx-indexed-db** (draft save/resume, queued submissions, attachment metadata) with robust retry logic for poor connectivity.

Techbar Chat | Real-Time Communication Platform

- 1:1 and group messaging, file sharing, emoji reactions, and meeting scheduler.
- Real-time audio/video calls via Agora RTC/RTM SDK.
- Built with Angular, Ionic, Node.js; Android version developed using Java.

SKILLS

Angular Ionic Framework

Cross-Platform Hybrid Mobile Apps

Modular Architecture Android Java

REST APIs Native Mobile Apps

HTML5 CSS3 Node.js

GraphQL APIs

RESTful API Development Firebase

Firestore Realtime Database

MongoDB SQLite Room DB

IndexedDB Capacitor

Agora RTC/RTM SDK

Messaging Integration GitHub Agile

EDUCATION

Bachelor of Science in Computer Science

AWKUM University Mardan

09/2016 - 11/2020

GPA

3.32 / 4.0
